

Is Aeroport Taxi Cheaper than a Regular Taxi

We all know you get what you pay for. Paying a higher price often comes with a perceived assumption of higher quality, but that isn't always the case – just ask anyone who buys branded sports apparel or shoes endorsed by musical artists. When it comes to personal transportation services like cab companies, there's a misconception that they're all charging pretty much the same prices for their cab rides. That's not true when you book with Aeroport Taxi, especially for your **airport taxi Pearson**.

The low price of your airport taxi limo when booking with Aeroport Taxi and Limousine is a something that sets Aeroport apart from its competition. For starters, Aeroport charges 15 percent less than the competition. That's substantial when you consider the cost of an average cab ride across the city during rush hour. Book your **airport limo Pearson** pick-up or drop-off, and you're going to pay 15 percent less simply by choosing the right company. Here's another

price benefit when booking with Aeroport. Unlike many other cab companies and app-based ride services, Aeroport offers a guaranteed flat rate; in fact, you can go onto their website any time and quickly discover what the cost of your cab ride will be – just plug in the coordinates and you’ll find out the price you’ll be expected to pay. That flat rate is universal, meaning prices don’t fluctuate during times of peak bookings like morning and afternoon rush hour; those prices don’t change when the weather changes either – you get the same rate during a traffic-snarling snow storm as you would on a bright and sunny summer’s day. It’s that kind of consistent discount pricing that makes Aeroport Taxi and Limousine such a great choice for your personal transportation service.

Paying less doesn’t mean you get less. In fact, Aeroport Taxi offers more than most cab companies. For starters, you can choose the service you want from a fleet of more than 140 limousines, luxury SUVs, executive town cars and minivans. They even have accessible vehicles with the same value-proposition – 15 percent less than the competition. Aeroport has uniformed drivers who are professionally trained in customer service and road safety, so you get the added benefit of knowing you’re not driving with some college kid trying to make a few extra bucks driving for a ride-sharing company. Aeroport is professional in everything that do. You get quality and value, not high prices.
