

Rapid COVID-19 Antigen Test

What is a Rapid COVID -19 Antigen Test?

- This test is used to rapidly detect an active COVID-19 infection in a patient.
- Results are generally reported within 30 minutes at most locations.

What Are The Types Of Tests Administered At Covid Clinic?

- Quidel Corporation Sofia SARS Antigen FIA Test
- Access Bio, Inc. CareStart COVID-19 Antigen Test
- Luminostics, Inc. Clip COVID Rapid Antigen Test

Information regarding these 3 tests is available on the website.

Which Of These 3 Tests Will Be Used To Administer You?

Covid Clinic utilizes multiple antigen tests in order to make antigen testing more accessible. The antigen test administered to the patient will be one of three tests, but Covid Clinic is unable to guarantee which of the tests will be utilized for a specific patient.

What Happens If You Miss Your Appointment?

If you have placed an order for a test and scheduled an appointment at one of our clinics, but are unable to make it at your scheduled time, the site will continue to honor your original order, provided all necessary forms have been completed. A patient may visit the site at their earliest convenience.

Is Covid Clinic CLIA Certified?

Yes, Covid Clinic and its partnered labs are all CLIA (Clinic Laboratory Improvements Amendments) certified and use only EUA tests under FDA guidance.
